1 Define your problem statement
What problem are you trying to solve? Frame your problem as a "How Might We" statement for ID card issuance. This will guide your feature discussion.

PROBLEM
Currently, our manual, paper-based ID card process is slow, leads to frequent errors, and gives no status updates to employees.

Step-2: Brainstorm, Idea Listing and Grouping

2

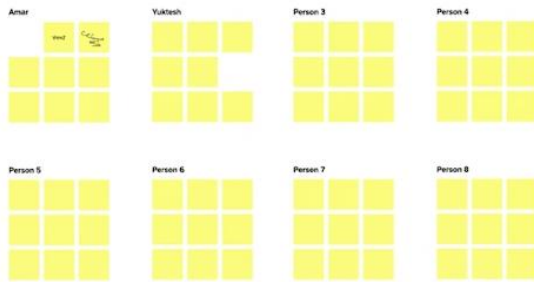

Brainstorm: Employee ID Card Request System

Write down any ideas that come to mind that address the challenge of creating a streamlined Employee ID Card Request system.

3

Group ideas: ID Card System Categories

These themes emerge from clustering similar ideas related to the new system.

**Key Objectives:**

- **Reduce processing time:** Minimize the time from request submission to ID card issuance.
- **Automate workflows:** Replace manual, error-prone email or paper processes with ServiceNow automation.
- **Improve accessibility:** Provide a user-friendly, self-service portal for employees.
- **Centralized tracking:** Enable real-time monitoring and management of request status.

Step-3: Idea Prioritization

4

Prioritize

Determine which features for the 'Employee ID Card Request' catalog item are most critical and feasible. Place ideas on this grid.
