Application to Employee ID Card Request:

- **The Issue:** Employees currently face delays and uncertainty due to a disconnected, manual process for requesting ID cards.
- **The Customer Viewpoint:** As an employee, the lack of visibility into my request status and the reliance on inefficient manual steps creates unnecessary frustration.
- **The Objective:** By leveraging ServiceNow to automate this workflow, we will eliminate manual bottlenecks and deliver a seamless, transparent experience that improves employee satisfaction.

I am	Describe customer with 3-4 key characteristics - who are they?	A new or replacement ServiceNow analyst; technical, detail-oriented, with a background in service management and platform automation. Focused on creating efficient user experiences.
I'm trying to	List their outcome or "Job" they care about - what are they trying to achieve?	Configure and deploy an easy-to-use ServiceNow catalog item for employees to submit ID card requests, including data validation and manager approval workflows.
but	Describe what problems or barriers stand in the way - what bothers them most?	ServiceNow configurations can be complex; navigating flow designer for multi-level approvals is difficult. Getting specific department-level requirements is slow.
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Previous manual processes make defining a single, unified digital workflow difficult. Multiple conflicting requirements from HR, Security, and IT add complexity.
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Anxious about missing project deadlines and building a system that is too complicated for users. Frustrated by the iterative, slow feedback loops.

PS-2	An existing employee requesting a replacement for a lost ID card.	Track the status of my replacement request after submission.	I receive no updates regarding whether my request has been approved or when my new card will be printed.	The workflow lacks automated status notifications and centralized tracking for the admin team.	Anxious and uncertain about the security of my request and the timeline for receiving the new card.
