

Project Design Phase-II

Data Flow Diagram & User Stories

Date	31 January 2025
Student ID	28 June 2026
Project Name	Employee ID Card Request
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

Employee ID Card Request Flow

1. User (Employee) accesses the self-service portal to submit a new ID card request.
2. The application checks the employee's details against the HR database.
3. A validation request is automatically sent to the relevant department manager for approval.
4. Upon approval, complete request details (Photo, Data, Validation) are securely sent to the External Issuance Service.
5. Notification is sent to the user upon successful card printing and dispatch.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Employee	ID Card Request	USN-1	As an employee, I want to submit an ID card request form so that I can get an ID card.	Form submitted & record created in ServiceNow.	High	Sprint-1
Employee	ID Card Request	USN-2	As an employee, I want to attach a photo to the request so my ID card is personalized.	Photo uploaded successfully in valid format.	High	Sprint-1
Manager	Approval Workflow	USN-3	As a manager, I want to review my team's ID card requests so I can approve or reject them.	Approval/Rejection buttons functional in Dashboard.	High	Sprint-2
Employee	Notifications	USN-4	As an employee, I want to receive an email notification once my request is approved.	Automated email received by employee.	Medium	Sprint-1
Admin	Task Management	USN-5	As an Admin, I want to receive an automated task once a request is approved.	Ticket created in the Admin/Security work queue.	High	Sprint-1
Admin	Fulfillment	USN-6	As an Admin, I want to update the status of the request to "Completed" after printing.	Request status updated to closed/complete	Medium	Sprint-3
