

Project Design Phase
Problem – Solution Fit Template

Date	28 June 2026
Student ID	23A51A05M5
Project Name	Employee ID Card Request
Maximum Marks	2 Marks

Solution Fit :

Definition: The Problem-Solution Fit for the Employee ID Card Request system ensures that the identified administrative bottleneck—delays in identity card issuance and manual request tracking—is addressed through an automated, streamlined digital workflow. This approach recognizes the behavioral patterns of employees who require quick access and administrators who need an organized, audit-ready verification process.

Purpose:

- **Solve complex problems in a way that fits the state of your customers:** Eliminates manual paperwork and email-based requests, providing employees with a structured, self-service portal that matches their need for efficiency.
- **Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior:** Utilizes the company's existing ServiceNow platform, meeting employees and managers where they already manage their daily workflows and tasks.
- **Sharpen your communication and marketing strategy with the right triggers and messaging:** Uses automated email notifications as key triggers to keep requestors informed about their application status, building transparency and confidence.
- **Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems:** Automates the lifecycle from submission to printing, reducing the "annoyance" of follow-up emails and solving the costly problem of administrative downtime in identity management.
- **Understand the existing situation in order to improve it for your target group:** Maps the current fragmented process of manual approvals and paper-based tasks to a centralized, digital-first system that improves tracking and response times for all stakeholders.

Define Customer and System, fit into CC (Corporate Compliance)	1. CUSTOMER SEGMENT(S) CS All corporate employees and contractors	6. CUSTOMER CONSTRAINTS CC Budget, limited Security personnel, Compliance standards, time available	5. AVAILABLE SOLUTIONS AS Manual form submission, Security Office visit, Email-based request (current alternative)	Explore AS (Alternative Systems), define service differences
Focus on Process & Integration, map to TR, RC, and EM	2. JOBS-TO-BE-DONE / PROBLEMS J&P Submit ID card requests quickly; Track status. Get card issued; Update details.	9. PROBLEM ROOT CAUSE RC Lack of a single, automated, cross-department standard workflow.	7. BEHAVIOUR BE Employees hunt for the request process, call multiple times. Security over-ty over-processes simple requests.	Focus on Employee J&P, map to BE, update RC (Request Lifecycle)
Measure Success & Channels of Request (CH)	3. TRIGGERS TR New Hire, Card Expired, Damaged/Lost Card, Name Change	10. YOUR SOLUTION SL Unified, mobile-friendly ID Card Request Portal; automated data collection, approval workflow, and real-time status tracking.	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE Employee Portal, IT Ticketing	Map CH, extract process metrics of BE
	4. EMOTIONS: BEFORE / AFTER EM Before: Frustrated, Insecure; After: Confirmed, Empowered, Professional		8.2 OFFLINE Phone call, Visit to HR office
